Govinda Kumar

Software Developer | C++ | DSA | Web Development

+91-7491985805 | govindkumarcai123@gmail.com | GitHub: CODER-G45 | LeetCode: SI1GMA

SUMMARY

3rd-year Electronics & Communication Engineering student with a strong foundation in C++, Data Structures & Algorithms and front-end web development. Builds algorithmic and responsive web projects, and is seeking a software development internship to learn from real-world engineering teams.

EDUCATION

B.Tech, Electronics & Communication Engineering 3rd Year (Ongoing)
Haldia Institute of Technology | CGPA: 8.6

TECHNICAL SKILLS

Languages: C++, JavaScript
Web: HTML5, CSS3, Responsive Design, DOM Manipulation, Local Storage
CS Fundamentals: Data Structures & Algorithms, OOP, Recursion, Backtracking, Problem Solving
Tools: Git, GitHub, VS Code, Command Line

PROJECTS

Sudoku Solver **C++ | Backtracking | Recursion** Live Demo

- Implemented a backtracking algorithm to solve 9×9 Sudoku puzzles using recursion and constraint checks on rows, columns and boxes.
- Applied 2D array manipulation to validate placements and prune invalid states; also built a web version of the solver.

Student Record Management System **C++ | OOP** GitHub

- Designed a console application using classes and objects to add, display, search and delete student records.
- Added grade calculation and menu-driven navigation to keep the program simple to use.

To-Do List Web App **HTML | CSS | JavaScript** Live Demo | GitHub

- Built a responsive task manager with add, delete, mark-complete and clear-all features (CRUD operations).
- Persisted tasks in the browser using Local Storage so data survives page reloads.

Personal Portfolio Website **HTML | Tailwind CSS | JavaScript**

- Designed and developed a responsive, single-page portfolio with animated UI, mobile navigation and project showcases.
